

Instructions for the WalkyDog Low Rider Accessory

- 1) Remove the axle nut from your bicycles rear wheel hub axle (as if you were going to remove the wheel).
- 2) Install the WalkyDog Low Rider on the wheel hub axle. Reinstall the nut and tighten it securely!
- 3) Attach your WalkyDog leash just as you would attach it to the normal jaw clamp.
- 4) Always remember to ride at a pace that is consistent with how fast your dog is walking to avoid overexerting your dog. This speed will vary from dog to dog.

1. Locate rear axle nut
2. Remove rear axle nut
3. Place Low Rider on axle

4. Reinstall the axle nut over Low Rider
5. Be sure the Low Rider is secure
6. Attach WalkyDog Bike Leash

7. You're ready to go!
